

Constitution No. 2

Reports of the Town Officers of
NEW BOSTON
NEW HAMPSHIRE

December 31, 1956

CONSTITUTION No. 2

By HARLAND AND WINIFRED BROWN

The Volunteer Fire Department of New Boston may well be proud of its history. It was organized as the "Constitution No. 2 Engine Company" in 1872 and still bears this title. When the Salem, Massachusetts Fire Department purchased its first steam engines, their Hunneman hand tub became the property of New Boston. This tub was made in Boston, Massachusetts in 1852, and at that time was considered one of the finest pieces of hand fire equipment available. It required fifty men to pump her. Records show that New Boston pumpers could throw a stream of water, after passing through one-hundred-fifty feet of hose, a distance of two-hundred-nineteen feet. The tub was drawn by either men or a pair of horses.

In addition to her practical value in fighting fires, Constitution No. 2 has participated in Many Firemen's Musters. One of the high lights in her history was going to Boston, Massachusetts with her entire company as guests of Mr. J. R. Whipple, September 23, 1896. A special train was used for the trip. After parading through the streets of Boston she competed against many other noted New England hand tubs, and records prove she made a creditable performance.

For over fifty years Constitution No. 2 was New Boston's main fire fighting equipment. In 1925 a mechanical pump was installed on a Reo truck owned by the Engine Company, and the hand tub was retired from active service.

On the Fifty Year Revival of "The Old Time Firemen's Muster in New Hampshire" loyal workers cooperated to recondition and redecorate the Constitution No. 2. On September 3, 1956 she was in the Firemen's Parade in Manchester and from there went to compete against other hand tubs at Pine Island Park. Due to a defective part, she was eliminated in the trial run, however with the enthusiasm and spirit of local citizens, it is believed that Constitution No. 2 will yet prove her merit in future musters just as she has done in the past.

The building has been jacked level. A 3 foot deep footing was made of cement, topped with cement blocks. Cold weather stopped operations and the job is not finished.

There should be siding put on the building as the temperature is only 10 degrees higher inside than out, if a fire is not kept.

DEPOT BRIDGE

Cost	\$1,388.30
------	------------

The lumber was cut from town property, sawed and treated. To buy what we needed would have cost \$1,800.00.

The condition of the iron in the bridge, which could not be seen before removing the floor, called for chipping of rust and two coats of paint, which was not in estimate of \$1,000.00.

The overdraft of \$388.30 was taken from summer maintenance.

Road Committee Report

Several meetings were held in January and February to consider further plans and construction.

A meeting was held with the State Engineer and a tour of the town roads was made and the following projects approved under town road aid:

1. Complete the tarring of the East Side Road No. 68. 0.2 mile from the Wason House to Roland Sallada's house. \$760.00
2. Road No. 70 from Route No. 13 towards Francestown Turnpike. Renew one culvert at brook. Excavate. Gravel in preparation for tar as far as possible with the allotted money. \$2,740.00
3. South Hill Road No. 91, from Route No. 13 to corner at Olmsted House. 1.4 mile. Excavate. Gravel in preparation for tarring. \$2,740.00
4. Road No. 60 towards Joe English Hill. From Route No. 13 to corner of Road No. 61 0.8 mile. Excavate. Renew culverts where necessary and gravel in preparation for tar. \$2,740.00

Total	\$8,980.00
-------	------------

The Road Committee suggests to the best economic advantage, to prepare the roads for tarring in items 2, 3 & 4, but do not tar until next year.

Forestry Committee Report

Since the last report from the Lydia Dodge lot, approximately nine thousand feet of timber was cut by the town and the lumber was used in repairing Depot Bridge and the Town Sheds.

A tract of land, from the town lot, containing forty acres more or less of timber in various stages of growth and conditions was granted to the Piscataquog Chapter of F.F.A. for such period as desired by the F.F.A. Chapter and as agreed upon by the Board of Selectmen and Forestry Committee of the Town of New Boston.

Upon completion, discontinuance or abandonment of approved forestry practices of the land, the area shall revert to the ownership of the Town.

*Forest Fire Report***YOUR TOWN DUMP — Use it freely — Care for it**

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised — regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you burn on your premises:

1. Secure a permit from your local forest fire warden — the law requires it. The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is **dead out** before leaving it.

Save yourself much possible difficulty.

Use Your Dump Freely . . . Help Keep it Safe

AUDITORS' REPORT

January 24, 1957

This is to certify that this day we audited and found correct and properly vouched for the New Boston Cemetery account.

GEORGE E. HOUGHTON,
ROBERT E. COLBURN,

Auditors

Article No. 9, Town Warrant

We found approximately fifty buildings in New Boston are effected by the State program of the Piscataquog River Pollution Control.

The first step of considering a water and/or sewage disposal system we found from discussion with the Water Pollution and Health Departments at Concord, is to secure a preliminary or feasibility report from a competent engineering firm. This would enable an evaluation of the expected results in terms of cost.

We have received from Anderson-Nichols Co. at Concord, N. H. an outline of the information such a report should contain.

1. General considerations for both projects would be:
 - a Population, present and future
 - b Areas to be served, present and future
 - c Topographical description and map
 - d Development trends
2. Water System
 - a Source of supply
 - b Collection and distribution
 - c Analysis of amount of water to be made available for domestic use, commercial use and fire protection
 - d Treatment (if any is required)
 - e Materials and supplies
 - f Pumping and/or control equipment
3. Sewage and Sewage Disposal
 - a Estimated quantities and character of waste
 - b Legal requirements
 - c Collection routes and materials necessary
 - d Treatment — method and equipment
4. Financing for either or both systems

In New Boston it would be necessary to form a precinct. This procedure would enable a more equitable future distribution of cost among those who directly benefit and provide for a contribution for those outside the precinct only to the extent that indirect benefits, such as services to town owned facilities would accrue to them.

From the Board of Fire Underwriters for New Hampshire we learned the fire insurance rates would be reduced approximately 30% with a hydrant fire protection system.

Peace of mind is hard to evaluate in dollars and cents. Besides the fire protection available, the expenses from breakdowns in systems and pump and septic tank cost and maintenance would cease to be a calamity for the individual.

Besides answering the questions and trying to alleviate the problems of those immediately effected, this may be one way to help New Boston to progress and grow as surrounding towns are doing. These facilities are something to offer a business prospect interested in locating in this area. The only way to be certain whether New Boston can afford to have either or both of these systems is to raise and appropriate the \$2,000 necessary to have the complete study made.

Finance Committee Report

This Committee has considered each item in the Town and School budgets and all the Articles in each of the Warrants, and has discussed them with the various town officials concerned and the School Board in its attempt to arrive at as reasonable recommendations as possible. We wish to express our appreciation for the cooperation which we received.

TOWN WARRANT ARTICLES

1 through 3. Recommend all items as printed.

4. Recommend.

5. Recommend. This Committee feels that it would be an excellent plan to set aside this amount each year until 1963 in order to have an appropriate Bi-Centennial Celebration.

6. Since very little information is available, this Committee does not make any recommendations at this time. It is hoped that this matter will be discussed freely at the Town Meeting.

7. Recommend. The trees on the Town Common were sprayed and trimmed last year. The Selectmen have been informed by the tree surgeons that the trees will have to have yearly attention in order to keep them in a safe condition.

8. Recommend.

9. Recommend. In addition, the Committee recommends that a few benches be purchased and placed near the stage in the Upper Town Hall. Many chairs have been damaged beyond repair by people leaving the stage via the chairs at the end of basketball games and similar events.

10. Recommend.

11. Recommend. The present town truck which is used mainly to plow snow is now ten years old. While it is still serviceable, it is not dependable. We have been informed that the Payloader is an excellent piece of equipment for plowing snow. Also, it will do much of the work that is now hired done such as loading gravel and sand, and other minor jobs which cost approximately \$1000 per year. The Payloader would cost \$15,050 and could be paid for over a ten-year period. The \$1000 saved each year could be applied towards the payments of the Payloader.

12. This Committee does not recommend approval of this Article on the basis that it believes that approval of Article 11 is more economical.

13. Recommend.

14. The Committee feels that it would be wise to continue the re-

pairs on the Town Sheds which was started last year. These buildings have no windows, and the exteriors are in need of repair.

15. Recommend. New Boston has been informed that it has until April 1958 to take care of its sewage problem. This Committee recommends that a 750-gallon cement septic tank be installed with adequate drain fields to take care of the sewage problem of the Town Hall, and that a grease-trap be installed in the kitchen of the Town Hall.

16. This Committee recommends approval of this Article on the conditions that this project shall in no way involve expense to the town, and that a proper test be made to determine if there be sufficient water for all parties concerned.

17 through 20. This Committee recommends approval.

SCHOOL WARRANT ARTICLES

This Committee recommends approval of all the Articles in this Warrant.

Signatures to this report: the Bylaws governing the Finance Committee prevents the representatives from the Board of Selectmen (Mr. John L. Conley) and from the School Board (Mr. Leon Daniels) from voting; therefore, only the names of the voting members are signed to this report.

Report of Planning Board

Raymond Barss and Selectman Harold Strong were welcomed as new members on the Planning Board and meetings were held periodically throughout the year.

We began the year, by finishing the road sign project voted by the Town a year previously. Stenciling and hand-painting of the signs and placing them was completed in the spring.

In reference to Article 9 of the 1956 Warrant, the contract was let out to Anderson-Nichols Co., Consulting Engineers of Concord, for a report on the feasibility of establishing a water supply and/or sewage disposal system in the Town. The survey was made and a public hearing was held on Feb. 2, 1957, with the Engineering firm presenting its' report. Because the report is too long to print for each Tax-payer and it can not be condensed properly, three copies were placed in the library for the Town-peoples' inspection, and an article has been placed in the warrant, giving the Town's people an opportunity to vote for further study on this project if they wish.

The Board also began a study to see if a Doctor can be persuaded to settle in our Town.

An Article has been placed in the warrant in reference to Bi-Centennial plans for 1963.

6. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.

This article was tabled until the other articles were taken care of then:

A motion by Leon Daniels and seconded by Marion French:

I move that the salaries of the School Board and Truant Officer be approved as provided for in the budget.

This was withdrawn with the approval of Mr. Daniels.

A motion by F. L. Moss and seconded by Clarence Boulter:

Moved that the salaries of the school board, Truant Officer, and the compensation of any other officers or agents be as shown in the budget.

This was voted in the affirmative.

7. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

It was moved by C. Boulter and seconded by L. Daniels to accept the reports as written in the Town Report. This was voted in the affirmative.

8. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.

It was moved by Mildred Colbert and seconded by Marjorie Bose that the School Board be empowered to employ State Auditors. It was so voted in the affirmative.

9. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between the estimated revenue

and the appropriation, which balance is to be raised by taxes by the town.

Amendment: Motion by F. Cann, seconded by R. Bose:

To reduce Janitor figure by \$200.00.

This was withdrawn by Mr. Cann.

Motion by C. Boulter, seconded by F. Moss:

I move that the district raise and appropriate the sum of \$76,679.30 for the support of schools, for the salaries of school officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

This was voted in the affirmative.

10. To see what sum of money the District will vote to raise and appropriate as additional funds for the school year 1955-56.

Motion by C. F. Boulter, seconded by Fred Moss:

I move that the district raise and appropriate the sum of \$2,800.00 as additional funds for the school year 1955-1956. This was so voted in the affirmative.

11. To see if the district will vote to accept the services of a helping teacher for Supervisory Union No. 19, in accordance with R.S.A. Chapter 189, Sections 44 and 47, as amended by Chapter 338, Laws of 1955, and to share in the salary and travel with the other districts in the Union for that portion of salary and travel in excess of the \$2,500 to be received annually from the State Treasurer.

It was voted in the affirmative to pass over Article No. 11.

12. To transact any other business that may legally come before said meeting.

Motion by F. L. Moss and seconded:

Moved that the School Building Committee be dissolved with the thanks of this meeting.

It was so voted in the affirmative.

Motion by Fred H. Cann, seconded by Merrill Todd:

That this meeting approve and recommend that the School Board encourage the teachers in our *new schools* to organize and oversee work groups of their students in after school hours to assist the janitor in keeping the premises in a clean and orderly manner.

This was so voted in the affirmative.

The meeting adjourned at 10:55 P.M.

FRED M. HODGE,
Clerk

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION

Concord, New Hampshire

Summary of Findings and Recommendations

August 24, 1956

The School Board
New Boston School District
New Boston, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the New Boston School District for the fiscal year ended June 30, 1956, which was made by this Division in accordance with the vote of the District. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

FINANCIAL STATEMENTS

Comparative Balance Sheets: (Exhibit A)

Comparative Balance Sheets as of June 30, 1955 and June 30, 1956, are presented in Exhibit A. As indicated therein, the Net Debt increased by \$73,135.69 during the fiscal year ended June 30, 1956.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein.

Comparative Statements of Appropriations and Expenditures — Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended June 30, 1956, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a revenue deficit of \$1,617.40, plus a net overdraft of appropriations of \$7,333.49, resulted in a net budget deficit of \$8,950.89.

Summary of Receipts and Expenditures: (Exhibit E-1)

A summary of receipts and expenditures for the fiscal year ended June 30, 1956, made up in accordance with the uniform classification of accounts, is included in Exhibit E-1. Proof of the Treasurer's balance as of June 30, 1956, is included in Exhibit E-2.

48 TOWN OF NEW BOSTON, NEW HAMPSHIRE

Statement of Long Term Indebtedness: (Exhibit G)

A statement of the long term indebtedness of the School District as of June 30, 1956, showing annual debt service requirements, is contained in Exhibit G.

Statement of School District Appropriation Account: (Exhibit F)

A statement of the School District appropriation account is included in Exhibit F. As indicated therein, as of June 30, 1956, the School District had received from the Town an advance on the 1956-1957 school tax in the amount of \$9,300.00, which is shown as a liability item in the Balance Sheet.

GENERAL COMMENTS

Current Deficit:

It is noted that the current deficit (excess of current liabilities over total assets) increased by \$7,835.69 during the fiscal year ended June 30, 1956, as shown by the following statement:

	June 30, 1955	June 30, 1956
Total Current Liabilities	\$3,942.00	\$14,623.80
Total Assets	127.83	2,973.94
	<hr/>	<hr/>
Current Deficit	\$3,814.17	\$11,649.86

A deficiency appropriation of \$2,800.00 was included in the 1956-1957 budget which only partially covered the current deficit. The financial situation at present is therefore as follows:

Current Deficit — As of June 30, 1956	\$11,649.86
Less: Deficiency Appropriation to be Raised in the 1956-1957 School Tax	<hr/> 2,800.00
Balance of Deficit to be Made Up	\$8,849.86

Consideration should be given to the matter of making up the \$8,800.00 deficit in the preparation of the 1957-1958 and subsequent years' budgets of the School District. It is suggested that a deficiency appropriation of \$2,200.00 might be made each year for four years or until such time as the deficit is liquidated.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District.

We extend our thanks to the officials of the New Boston School District for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER, Director
Division of Municipal Accounting
State Tax Commission

JOSEPH W. BOUDREAU, Auditor
O. MAURICE OLESON, Accountant

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the New Boston School District for the fiscal year ended June 30, 1956. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1956, and the results of operations for the fiscal year ended on that date.

Respectfully submitted,

HAROLD G. FOWLER, Director
Division of Municipal Accounting
State Tax Commission

JOSEPH W. BOUDREAU, Auditor

AUDITOR'S CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of New Boston of which the above is a true summary for the fiscal year ending June 30, 1956 and find them correct in all reports.

JOSEPH W. BOUDREAU,
O. MAURICE OLESON,
State Tax Commission

Report of the Superintendent of Schools

To the Citizens of New Boston:

I hereby submit my annual report as superintendent of the New Boston schools.

Teaching Staff

With the opening of school in September, we had an entirely new staff in our high school, and one change on the elementary level.

The following teachers terminated their service with us as of June 30, — John McNamara — High School Principal, William Powers — Vocational Agriculture, Joyce Tefft — Home Economics, Charles Juris — English and Social Studies, Elsie Johnson — Science, Elizabeth Anderson — Mathematics, and Helen Garon — Grade 1.

We were very fortunate in the teachers secured as replacements. Carl Van deBogart, for six years a teacher of science at Farmington High School, took over as the principal of the high school and science instructor. George Kittredge of Mont Vernon, a graduate of the University of New Hampshire, and prior instructor of Vocational Agriculture under the Veterans Program in New Boston, replaced Mr. Powers. Mrs. Helen Witty, who had been teaching on the elementary level, although a qualified home economics teacher, was assigned the program previously covered by Mrs. Tefft. Mrs. Verna Drury, previously of Kents Hill, Maine, and Harold Hapgood, a graduate of Keene Teachers College, rounded out our high school staff.

Mr. Guy Heath, a graduate of Plymouth Teachers College, was employed to teach grades five and six, and serve as elementary principal. Miss Dorothy Wheatley, also a graduate of Plymouth Teachers College, replaced Miss Garon in Grade 1.

Enrollment

The current school year opened with approximately the same number of pupils as a year ago. However, the distribution of this number became rather difficult with an increase on the junior-senior high school level. Even slight increases on the high school level make it no longer possible to combine two consecutive classes as has been the practice in past years, and a problem of scheduling has arisen. This problem will be more acute another year, together with a slight increase in the total enrollment. These problems will be considered at a later point of this report.

The District Warrant for 1957

The warrant for the March 1957 meeting, in addition to the customary articles regarding officers and budget, contains several so-called "special articles."

The warrant contains an article for a deficiency appropriation as recommended by the State Tax Commission as a result of the annual audit by that office. A year ago we carried such an article to the amount of \$2,800, \$1,800 to cover over-run on transportation, and

\$1,000 on the costs of the new building. It will be recalled that at the time of financing the new building, there was a question as to whether or not we could float a bond issue in excess of \$68,800, although the district had authorized an expenditure of \$70,000 on the building.

Rather than experience a delay in the sale of the bonds, it was decided to issue said bonds to the amount of \$68,800. In addition to the construction costs of \$70,255.82 as listed in the Annual Report a year ago, such items as phone, electricity, heat, insurance, and interest on the refinanced loan brought the total cost of the project to \$72,529.63. This amount was \$3,229.63 more than the \$68,800 bond issue and the additional \$1,000 provided in March 1956.

The warrant also includes an article to cover the wishes of the voters relative to sewage disposal. At this writing no definite plan has been formulated, but it is anticipated that such will be available at the annual meeting, and an appropriation of \$500 is carried in the article for such purpose.

1957-58 Budget

The proposed budget for 1957-58 as prepared by the School Board, calls for an increase of approximately \$10,000 over the amount of the current budget. The anticipated income from other than tax sources shows an increase of some \$6,400, making an increase in the tax levy of \$3,500.

The principal item of increase in the gross budget is due to the item of teachers' salaries. The School Board proposes that an additional teacher be employed to relieve the anticipated load on the junior-senior high school level. As was mentioned previously in this report, the previous pattern of combining classes is no longer possible in many instances, and there is not sufficient class time available for the present staff to adequately take care of the necessary new class units.

It might also be mentioned at this time, that it would appear that another year we will also need to add another teacher on the Grades 1-6 level. Again, our elementary grades are running just enough larger to prevent combinations of grades on the elementary level, and we must look forward to a one grade per room arrangement in the fall of 1958.

Conclusion

As mentioned in my report of last year, the citizens of New Boston should be justly proud of their new elementary building. The building has proven satisfactory and functional to the teachers and school board.

In conclusion may I express my appreciation to the teaching staff, school board, building committee, — in fact to all who have contributed in making the present school situation so successful and profitable to the pupils in our schools.

Respectfully submitted,

LEWIS F. FOOTE,
Superintendent of Schools

New Boston School Health Report

September 1955-June 1956

I am submitting my fifth annual report of the Health Services given in the New Boston Schools for the period of 1955-1956.

At the beginning of the school year, all children were examined by Dr. Samuel Fraser.

All pupils were weighed, measured, and given a vision and hearing test.

206 children received the Patch Test.

Notices were sent to all parents of the children who had any condition which deviated from the normal.

Notices Sent		Received Care	
Tonsils	18	Tonsils	6
Heart	1	Heart	1
Vision	6	Vision	7
Hearing	1	Hearing	1
Teeth	42	Teeth	80

Reported Communicable Diseases			
German Measles	25	Chicken Pox	2
Impetigo	2	Pediculosis	7

One child had rheumatic fever and one child received a fractured wrist.

In October, 193 children received their first inoculation of Salk vaccine, and 30 received their second inoculation.

This past fall another Polio Clinic was held. At this time first, second and third inoculations were given.

Registration was held in April with 14 of our incoming First Graders present.

Four children were seen at the Orthopedic Clinic and two at the Mental Hygiene Clinic.

30 home visits were made during the year and 35 first aids given.

I wish to express my thanks to the Superintendent, Parents, Teachers, and School Board for their cooperation.

Respectfully submitted,

BEATRICE BOCKUS, R.N.
